# Face-to-Face Recruitment That Delivers

There is a real buzz about the event. We've already been approached by a number of doctors, pharmacists, we've got someone from IT, a specialist security expert, as well as nurses and occupational therapists. It's a great place to come.

Exhibited at 12 events

We have been amazed at the variety. Bright students, some mums bringing their sons along, mature people that are considering a change in their careers and perhaps they've never considered going into healthcare before but actually they've got a lot of skills that would be very useful to us.

Exhibited at 7 events

The Job Show was an excellent platform for NHS Professionals. The Show was marketed exceptionally well, and we engaged with over 600 quality applicants. The stand looked great and was very well put together. The Job Show was a massive success for NHS professionals.

# Real recruitment outcomes

Employers attend Job Shows to accelerate hiring and connect with candidates aligned with their vacancies

Typical exhibitor outcomes include:

**500-1,000**  
candidates engaged

**50-200**  
strong applicants

**5-60 hires**  
hires achieved

Recruitment agency fees typically range from £2,000–£9,000 per hire.  
**One hire can often cover the full stand investment.**  
Each additional hire significantly reduces overall cost-per-hire.

- achieve multiple hires from a single event
- make faster hiring decisions face-to-face
- build a pipeline of qualified applicants
- present your employer brand beyond job ads
- progress strong candidates directly into interviews

## A Different Type of Recruitment Event

While many careers fairs are brief, single-session events, Job Shows are designed as large-scale platforms for high-impact recruitment outcomes.

We produce a selective number of events each year, allowing us to concentrate significant time and marketing resources into every location. This focus enables us to:

- invest heavily in targeted candidate marketing
- deliver stronger candidate quality and engagement
- attract larger volumes of active and passive jobseekers
- empower exhibitors with advanced recruitment technology and support

The result is a recruitment environment focused on real hiring outcomes, moving beyond brief promotional attendance.

# Vacancy-Led Candidate Marketing

Refined over 12 years, our marketing strategy is dedicated to targeting candidates aligned with your specific vacancies. We execute a 6 week custom campaign to drive high-quality candidates directly to your stand through:

## Targeted Candidate Matching

- **Role-Specific Search:** We invest heavily to place the event in front of candidates the moment they search for job roles that match your vacancies.
- **Smart Video Retargeting:** Based on those searches, we deploy follow-up video adverts across the Google network to keep the event top-of-mind.
- **Active Pipeline Management:** We monitor the sectors and job titles of candidates as they register. This allows us to adjust our marketing spend weekly, ensuring every industry represented at the show has high-quality candidates.

## Comprehensive Multi-Channel Outreach

- **Digital & Social:** Targeted social media and professional search campaigns.
- **Job Board Synergy:** Promotion via our in-house platform and major external boards.
- **Local Authority:** PR campaigns, university outreach, and shopping centre digital media.
- **The Job Show Magazine:** A high-quality printed guide produced for every event.

## The "Passive" Talent Bonus

By hosting our events in high-footfall venues, you bridge the gap to the "invisible" talent pool. These are skilled professionals who aren't currently browsing job boards but are open to a career move when they meet you in person.
